

KOKE

PORTFOLIO — 2021

JAN KOKE was born in Hamburg, Germany. In the year 1994 he first came in contact with graffiti and lettering. 2006 he started an education as a layouter, typesetter and printer. That was the time he learned about typography, taught by his master, an old school typesetter. After that he studied communication design in Hamburg to expand his knowledge about the anatomy of letters. In his studies he designed fonts, logotypes and began to work on his calligraphy skills and calligraffiti styles. Out of these different influences, from all kinds of letters he creates something new, by mixing styles, tools and philosophies.

COMISSION WORKS

I'm also doing comission works of any kind, canvas, walls, interior design, you name it. Send me a message so we can discuss further details.
